Technical Skills

- **Frontend:** HTML, CSS, JavaScript, React.js, Bootstrap
- **Backend:** Node.js, Express.js, API Testing & Building
- **Databases:** MongoDB, Atlas, SQL
- **Programming Languages:** JAVA, Javascript, Typescript

Projects

Freight Management System

- Built using the MERN stack, ensuring a robust and scalable architecture.
- Integrated Mapbox for real-time location tracking and enhanced visualization.
- Implemented Nodemailer for automated email notifications and user communication.

Airbnb Clone (MERN)

- Built a project to learn MVC architecture, database relationships, and CRUD operations, gaining hands-on experience in scalable development.
- Developed a strong foundation in full-stack development through practical implementation

Professional Experience

Intrainz Innovation and Private Limited

- Web Developer **Intern** (Online) |

July 2024 - Sept 2024

Developed and optimized user-friendly web interfaces for three major projects using React, HTML5, CSS3, and JavaScript. Improved mobile engagement by 20% through responsive designs and enhanced user satisfaction by 15% via usability testing.

IGAP Technologies

- Web Development **Intern**

Dec 2023 - Jan 2024

Developed an e-commerce website using React and a mock API, implementing CRUD operations, user authentication, and cart functionality. Optimized performance, reducing load times by 30% and increasing user engagement by 25%.

Education
